

AIR QUALITY MANAGEMENT

presents...

A series of research seminars on:

Air Quality & Climate Change

Date	Presented by	Title	Room
Monday 24 November	Professor Jim Longhurst - Director	Air pollution in historical perspective	4Q51
Monday 15 December	Dr Tim Chatterton - Senior Research Fellow	South Africa's National Framework on air quality. UWE's role in an exemplar of integrated environmental governance	4Q51
Friday 9 January	Dr Nurul Leksmono - Research Fellow	Air quality management in Indonesia	4Q51
Monday 26 January	Rose Bailey - PhD Student	Carbon management at the city scale: Exploring carbon futures for the Bristol Region	3Q80
Monday 16 February	Dotun Olowoporoku - PhD Student	Delivering air quality objectives through the LTP process: Are we there yet?	3Q80
Monday 9 March	Mofoluso Fagbeja - PhD Student	Applying remote sensing and GIS techniques to air quality and carbon management: a case study of gas flaring in the Niger Delta	3Q80
Monday 30 March	Dr Enda Hayes - Research Fellow	Environmental exposure to endotoxin emissions from commercial composting activities	4Q51
Monday 20 April	Simon Baldwin - PhD Student	Integrating climate change and air quality management at a regional and local level	4Q51
Monday 11 May	Jo Barnes - Research Associate	Monitoring airborne arsenic in west Cornwall	TBC
Monday 1 June	Ross Hunter - PhD Student	Enhancing integrated management of atmospheric pollutants within the Local Air Quality Management and Local Pollution Prevention and Control regimes - using nitrogen dioxide as a focus	TBC

Presentations will be **9.15 – 9.45 am**. Teas & coffees will be available from 9.00 am and there will be 15 minutes for questions afterwards.

Everyone is welcome...but please email aqmrc@uwe.ac.uk at least one week prior if you would like refreshments.
