Ranked 39th in the UK.

### Discover the UK

Immerse yourself in British culture  
through exciting trips and Bristol's  
lively atmosphere.

### Explore & Experience

Live on UWE's modern campus while  
enjoying all that Bristol has to offer.

### Build Lifelong Connections

Meet students from around the world  
and expand your global network.

### Prepare for the Future

Gain international experience, cultural  
awareness, and independence.

All day trips feature roundtrip transport from UWE Frenchay campus and walking tours with knowledgeable guides.

LONDON

# 01 London

Experience the capital of England on our tour through the heart of the city, including the Palace of Westminster (and Big Ben), Buckingham Palace, Trafalgar Square, Piccadilly Circus and more. A flight on the famous London Eye is included with the visit.

BATH

# 02 Bath

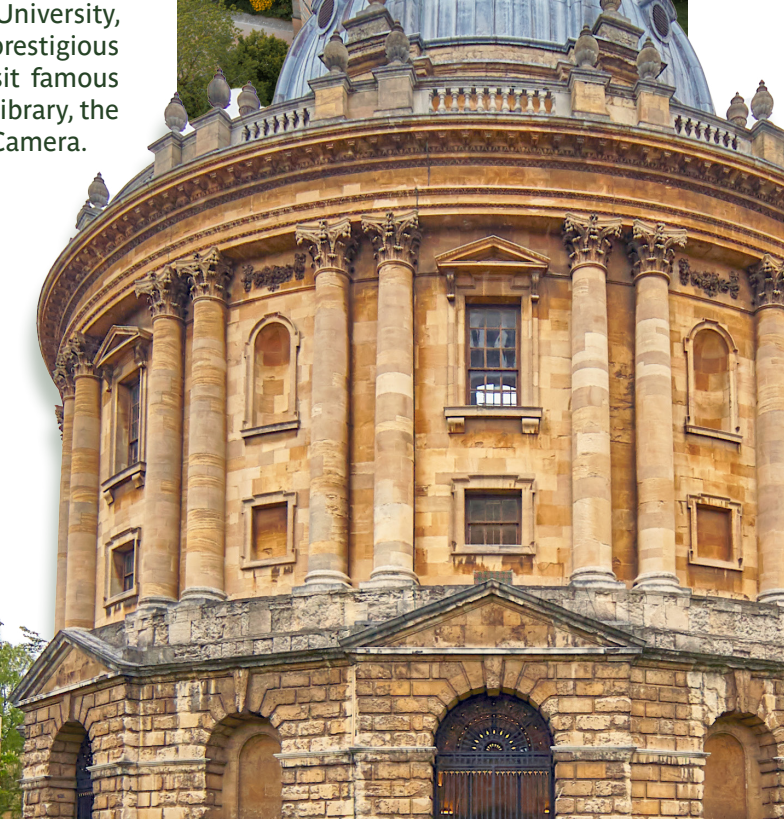

The ancient city of Bath was originally founded as a Roman city in the 1st century AD. See and learn about its magnificent buildings and other features, and take time to explore, shop, and enjoy the city.

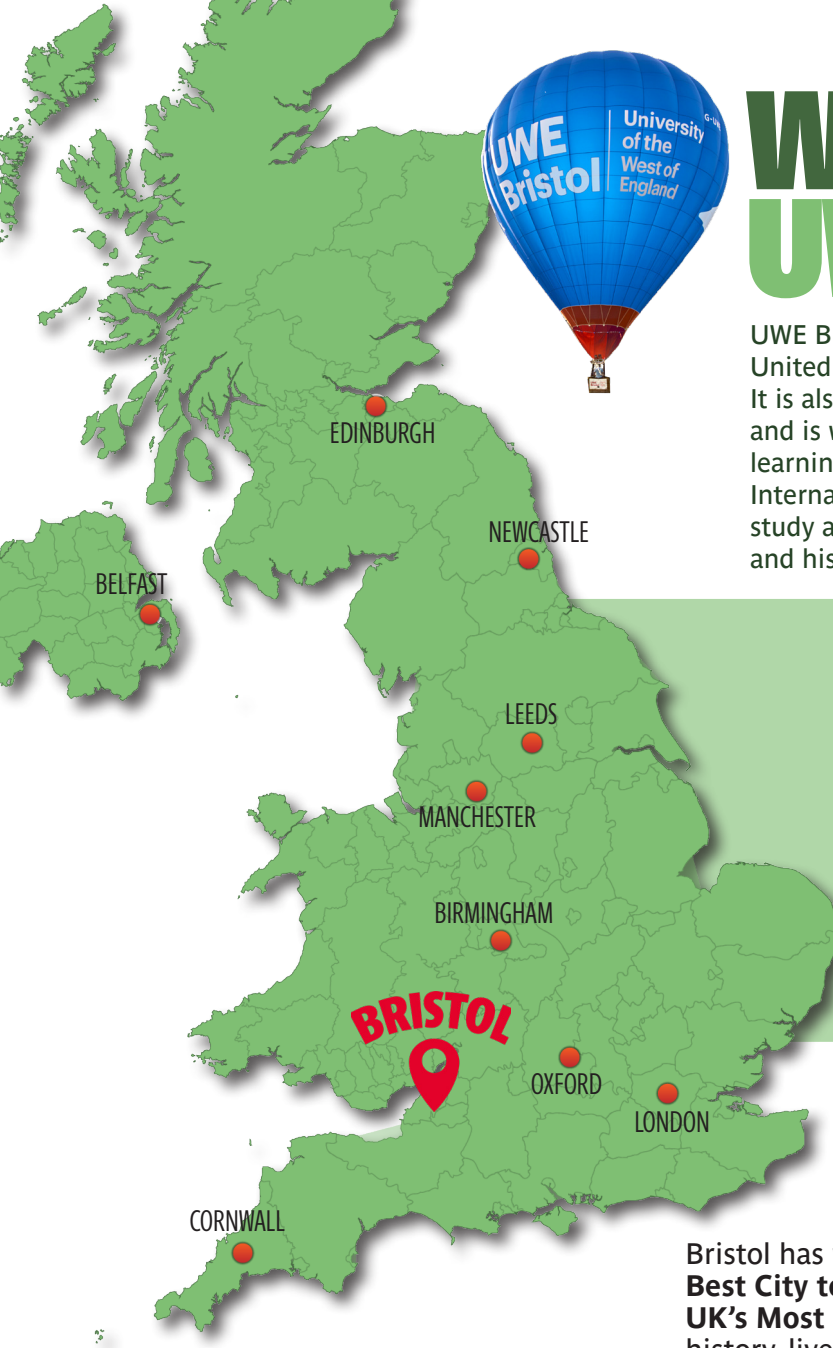

OXFORD

# 03 Oxford

Packed with charm, history, and culture, Oxford is one of England's most famous cities. Tour through Oxford University, one of the oldest and most prestigious universities in the world, and visit famous landmarks such as the Bodleian Library, the Bridge of Sighs, and the Radcliff Camera.

# WELCOME TO UWE BRISTOL

UWE Bristol is one of the Top Ten Modern Universities in the United Kingdom (Sunday Times Good University Guide 2026). It is also ranked 39th in the Guardian University Guide 2026 and is widely recognised for excellent teaching, supportive learning and strong graduate employability. Our annual International Summer School gives you the opportunity to study at a prestigious institution while exploring a dynamic and historic city.

## WHERE IS UWE BRISTOL

Located in **Bristol, United Kingdom**, UWE Bristol is a modern university with cutting-edge facilities and a friendly, supportive community. Bristol is a vibrant, creative, and multicultural city, perfect for students looking for adventure and inspiration.

## DISCOVER BRISTOL

Bristol has won multiple awards, including being named **Best City to Live in the UK** (Sunday Times 2017) and **UK's Most Sustainable City** (2021). It is famous for its rich history, lively arts scene, and stunning landmarks, including:

### Clifton Suspension Bridge

An iconic engineering masterpiece.

### Harbourside

A lively area with restaurants, museums, and boat tours.

### Bristol Cathedral

A stunning historic site in the heart of the city.

### Street Art & Culture

Home to Banksy and a thriving creative scene.

## TRAVEL & CONNECTIVITY

**London to Bristol:**  
Just 90 minutes by train.

### Nearby Cities:

- Cardiff (1 hour)
- Bath (15 minutes)
- Birmingham (1.5 hours)

# EXCITING COURSES

**ENGLISH LANGUAGE AND UK CULTURE** Our thoughtfully crafted curriculum integrates a range of exciting UK-focused themes, including Language, Arts, Food, Sport, Geography, Culture, Fashion, and more. Classes take a student-centred approach that ensures ample talking time and encourages active involvement from learners as they learn about the UK and share about their own culture. Through engaging activities, discussion, and group interaction, students improve skills such as speaking, presenting, listening, reading, and critical thinking while increasing their confidence, knowledge of the UK, and overall English proficiency.

**ENGLISH FOR SOCIAL MEDIA AND DIGITAL COMMUNICATION** Students develop practical skills in creating content for platforms such as podcasts, blogs, and video channels, while also examining issues such as fake media, audience interaction with social media, and cultural differences between the UK and their home country. Through workshops, presentations, and collaborative projects, on areas including how language shapes identity, storytelling, and engagement in online spaces, this two-week course enhances learners' confidence and fluency in using English for global digital communication.

**BUSINESS (UG/PG)** An intensive and enriching academic experience designed to support international students, at either undergraduate or postgraduate level, in developing key business competencies, academic skills, and cultural awareness. The programme is structured across two weeks and includes a blend of lectures, practical workshops, team-based projects, and reflective sessions, designed to be interactive and applied, encouraging students to work collaboratively while developing their individual strengths.

**LAW** Designed for current Law students, this transformative programme explores English and international law through hands-on workshops and real-world case studies. Participate in dynamic expert-led lectures that bring legal theory to life, connect with fellow aspiring lawyers, law academics and law professionals, and gain exposure to the UK's globally recognised legal system, enhancing your understanding of both English and international legal frameworks.

**APPLIED SCIENCES** This course offers students a hands-on introduction to the core scientific disciplines that shape modern research and innovation. Through interactive laboratory sessions, taster lectures, and real-world case studies, participants will explore areas such as Forensic Science, Biological Sciences, and Biomedical Science. You'll develop practical skills using state of the art equipment, investigate real scientific questions, and discover how applied science drives progress in health, crime investigation, and biotechnology.

**BESPOKE** Custom provision developed in response to the needs of a group of learners. Previous bespoke programmes have been delivered from schools across all UWE colleges, and we look forward to exploring how we can support students from your institution in a desired area of study. Contact us to discuss bespoke course development in Robotics, Engineering, Health, Business, Arts, Law, Architecture, Education, Computing, Applied Sciences, Social Sciences, and more.
