**Language support** N/A

**Term dates** Mid-August—Mid-May

**Website** <https://www.ryerson.ca/>

### Description

Ryerson University is a new exchange opportunity open to Biomedical students. Students spend the year doing supervised work in a lab with the option to take classes as well. Ryerson has a wide range of support services for students and a comprehensive orientation programme that advises students on issues such as accommodation, insurance, study permits and banking.

### Surrounding Area

Ryerson is located right in the heart of downtown Toronto on Eaton Square (next door to the Eaton centre). As the biggest city in Canada, there are a wealth of things to do such as watching the local sports teams, exploring local museums and even visiting Niagara falls nearby.

### Accommodation

Limited University accommodation is available and students are encouraged to apply early to secure a room. Students who are unsuccessful must seek

accommodation through the private sector. Ryerson will provide advice on how to do so.

### How to apply

When nominated to Ryerson, you will need to provide:

- Completed online application
- Transcript
- List of modules you wish to take (if applicable)

Application deadline: Early April

### Further information

Students should be aware that cost of living for amenities such as phones, textbooks and health insurance is likely to be higher than they are used to.
