

Welcome to *espressoMaths*.

Interactions are expected to last no more than 10 minutes.

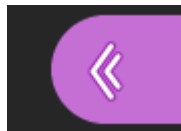

To join the queue, please raise your hand and keep it raised.

lowered

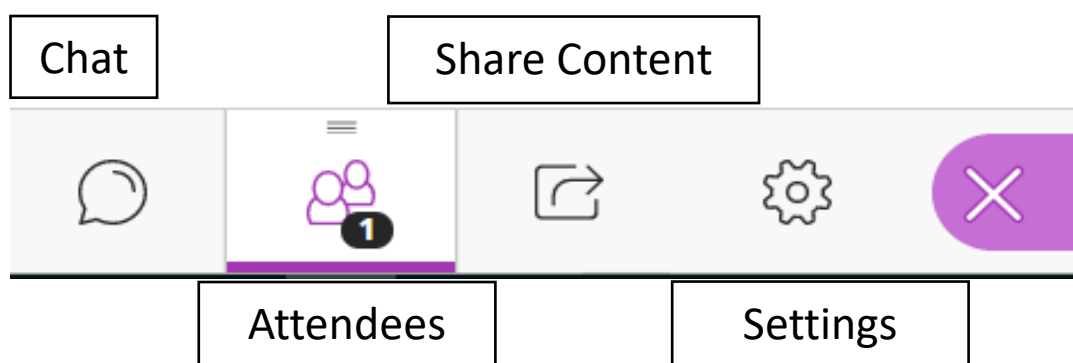

raised

If you wish to see your place in the queue, then please navigate to the area in the bottom right of the window; click the purple icon, then click on attendees and you will be able to see your place in the queue.

If you have any hand-workings that you will need to share, then it is a good idea to have a photograph of these already taken and available on the device that you are using to access the drop-by service. Similarly, if you have other files that you wish to discuss, then please have them already loaded and ready to share when requested.

It will be easier to interact using audio, so if you are able to turn on your microphone, then please do so when requested; you may need to adjust your settings to do this.

When talking to the member of staff on duty, you may need to share a file/screen with them using the “Share Content” option.
