Rhino

Current version: 7.8

Install on your own device:
Download through AppsAnywhere
Follow the steps below

On a UWE computer:
Launch the specific app from AppsAnywhere

Rhino will launch using Cloudpaging Player.
Please note, the download needs a sturdy connection, and may take some time.

Step 1
Go to https://appsanywhere.uwe.ac.uk, log in, and look for Rhino, click Launch.

Step 2
Once Cloudpaging completes the download and is ready, Rhino should launch, on the getting started screen enter your UWE Bristol email and tick the licence agreement before continuing.

Step 3
When the program tells you that your account has a licence ready to use, press on the button that says '**Login as (your email)**'.

Step 4
A browser window should appear and asking you to login to your Rhino account, again use your UWE Bristol email and press on the blue arrow.

Step 5
Then complete the login by pressing on blue box that has **live.uwe.ac.uk** on it. Rhino will open and be ready to use.
