

SketchUp Pro

Current version: 2021 + V-Ray 21.1

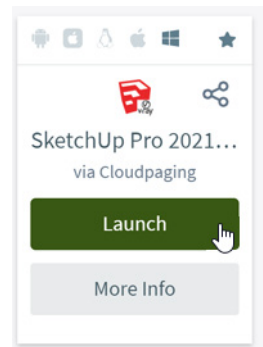

On your own device, launch via Cloudpaging Player
Follow the steps below

SketchUp Pro 2021 with V-ray will launch using Cloudpaging Player.

Please note, this app is not available for Mac.

Step 1

Go to <https://appsanywhere.uwe.ac.uk>, log in, and look for Sketchup Pro 2021 with V-ray, click **Launch** to activate Cloudpaging Player.

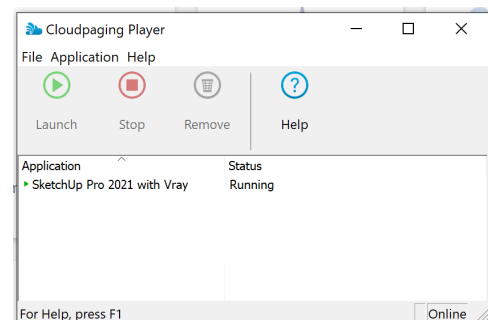

Step 2

Cloudpaging Player will advise 'SketchUp Pro 2021 with V-ray' was added to your list of applications'. It will start "Pre-fetching", up to 100%, then show as 'Activating', then 'Virtualising'.

Step 3

The app will open, and you can start work, while Cloud Paging Player continues 'Paging the remainder' up to 100%, then shows as 'Running'.

On a UWE computer, V-Ray for SketchUp is installed locally.
Launch via AppsAnywhere

Step 1

Go to <https://appsanywhere.uwe.ac.uk>, and look for Sketchup Pro 2021 with V-ray, click **Launch** to load the local installation.
