V-ray for Revit

Current version: 5

On your own device, launch via Cloudpaging Player
Follow the steps below

V-ray for Revit will launch using Cloudpaging Player.
Please note, this app is not available for Mac.
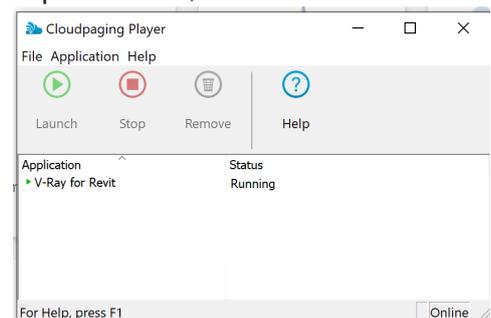

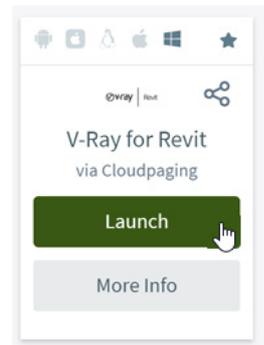

Step 1
Go to https://appsanywhere.uwe.ac.uk, log in, and look for V-Ray for Revit, click **Launch** to activate Cloudpaging Player.

Step 2
Cloudpaging Player will advise 'V-ray for Revit' was added to your list of applications '. The player will show 'Pre-fetching', 'Activating', then 'Virtualising' up to 100%.

Step 3
The app will open, and you can start work, while Cloud Paging Player continues 'Paging the remainder' up to 100%, then shows as 'Running'.

On a UWE computer, V-Ray for Revit is installed locally.
Launch via AppsAnywhere.

Step 1
Go to https://appsanywhere.uwe.ac.uk, and look for V-Ray for Revit, click **Launch** to load the local installation.
