SOUTH PAD ONGOING ACHIEVEMENT RECORD

NURSING

BSc Nursing

South PAD 1.0; Future Nurse: Standards of proficiency for registered nurses, (NMC 2018)

This OAR is to be used in conjunction with the Practice Assessment Document

TABLE OF CONTENTS

The OAR document contains:

- A summary of each placement
- Practice Assessor checklist/comments
- Progression statements
- Confirmation of proficiencies that are met in Part 2 or Part 3

Guidelines for OAR

Student

The Ongoing Achievement Record (OAR) summarises your achievements in each placement and with the Practice Assessment Document (PAD) provides a comprehensive record of professional development and performance in practice.

The purpose of this document is to provide evidence from Practice Assessor to Practice Assessor regarding your progress, highlighting any areas for development throughout the programme. Your Practice Assessor and Academic Assessor must have access to this document at all times during your placement and it should be made available on request. It is your responsibility to ensure it is completed on each placement.

Practice Supervisor

As a Practice Supervisor you can use the OAR to review achievements and progress to date and identify additional learning opportunities to support student development and learning.

Practice Assessor

As a Practice Assessor this document provides you with information regarding the student's progress. This allows areas for development to be identified from previous placements. It is your responsibility to ensure that each Placement record is completed and the Progression Statement at the end of the Part is signed. It is also your responsibility to confirm which of the identified proficiencies have been achieved in Part 2 /Part 3.

Academic Assessor

As the Academic Assessor you work in partnership with the Practice Assessor in relation to student achievement in practice. The Academic Assessor confirms student completion and recommends the student for progression for each part of the programme.

Statement regarding the use of the term "Parts"

There are three Practice Assessment Documents in total, which incorporate the range of Future Nurse Standards of proficiency (NMC 2018). "Parts" in this context is used to represent the range of outcomes to be achieved by students at different levels. These parts may differ from the parts of the education programme that will be defined locally by each university provider.
