SOUTH PAD PRACTICE ASSESSMENT DOCUMENT

NURSING

PART 2

BSc (Hons) in Nursing

South PAD 1.0; Future Nurse: Standards of proficiency for registered nurses, (NMC 2018)

Please keep your Practice Assessment Document with you at all times in practice in order to review your progress with your Practice Supervisor, Practice Assessor and/or Academic Assessor

This South PAD Practice Assessment Document for Nursing has been adapted from the Pan London Practice Assessment Document which was completed by the Pan London Practice Learning Group in collaboration with practice partners, mentors, academic staff, students and service users across the London Region. This work has been led by Jane Fish as Project Manager. The South PAD Project Team has also collaborated with practice partners, mentors, academic staff, students and service users across the South Region in the adaptation process.

Membership of the Pan London Practice Learning Group (PLPLG)

- Kathy Wilson, Associate Professor, Head of Practice Based Learning, Middlesex University (Chair)
- Nicki Fowler, Programme Leader/Professional Lead, Learning Disabilities, University of Greenwich (Vice Chair)
- Lynn Quinlivan, Practice Programme Co-Ordinator for Pre-Registration Nursing, University of Hertfordshire
- Sue Woodward, Senior Lecturer, Head of Clinical Education, King's College London
- Karen Chandler, Associate Professor, Director of Practice Learning, Kingston University and St George's, University of London
- Alex Levine, Faculty Director Practice Learning, Canterbury Christchurch University
- Julie MacLaren, Deputy Divisional Lead Practice Education, City, University of London
- Michelle Ellis, Senior Lecturer, Child Health, City, University London
- Yvonne Halpin, Associate Professor (Practice Learning), London South Bank University
- Nigel Davies, Head of Pre-Registration Nursing, University of East London
- Barbara Hoyle, Head of Practice Education University of West London
- Jo Rixon, Principal Lecturer for Practice Learning, Buckinghamshire New University
- Rachel Bacon, Associate Teacher Practice Learning, The University of Nottingham (MEPLG representative)
- David Marston, Senior Strategic Programmes, Planning and Performance Manager,
 Quality Patient Safety and Commissioning Team (London), Health Education England
- Jane Fish, PLPAD Project Manager
- Ian Grant-Rowan, (PLPAD Document Design) Systems Support/Projects, Middlesex University
- Clara Longley, Gregory Brinsdon, Project Administrator, Middlesex University

The development of the Pan London PAD was funded by Health Education England (London)

Membership of the South PAD Project Team:

- Karen Sheehy, Senior Lecturer, Mentorship and Professional Education and Practice Learning Fellow, HEE South, South PAD Project Lead, Oxford Brookes University
- Sarah Khan, Deputy Head of Practice Education and Senior Lecturer, South PAD Co-Project Lead, Oxford Brookes University
- Dr Ian Scott, Associate Dean, Student Experience, Senior Responsible Officer, Oxford Brookes University
- Netta Lloyd-Jones, Head of Practice Education, Deputy Senior Responsible Officer, Oxford Brookes University
- Jacqueline Fairbairn-Platt, Regional Quality and Commissioning Manager, Health Education England South, Senior Responsible Officer
- Zoe Scullard, Regional Head of Quality and Commissioning, Health Education England South, Senior Responsible Officer
- Dominic McCutcheon, Associate Head of Placement Experience NAM, University of the West of England
- Dr Michelle Cowen, Principal Teaching Fellow, Director of Learning in Practice / Lead for Inclusivity, University of Southampton
- Theresa Corkill, Senior Lecturer, University of Brighton
- Erika Thorne, Senior Lecturer, University of Brighton
- Kathy Jefferies, Project Administrator, Oxford Brookes University

The South PAD project was funded by Health Education England (South)

The following Approved Education Institutions collaborated in the adaption and implementation of the document:

Bournemouth University

BPP University

Oxford Brookes University

Solent University

The Open University

University of Brighton

University of Exeter

University of Gloucestershire

University of Southampton

University of Surrey

University of the West of England

University of Winchester

University of Plymouth

University of Portsmouth

No part of this work may be photocopied, recorded, or otherwise reproduced without the prior permission of the South PAD Project Team.

Statement regarding the use of the term "Parts"

There are three Practice Assessment Documents in total, which incorporate the range of Future Nurse Standards of proficiency (NMC 2018). "Parts" in this context is used to represent the range of outcomes to be achieved by students at different levels. These parts may differ from the parts of the education programme that will be defined locally by each programme provider.

Welcome to the Practice Assessment Document (PAD)

Student responsibilities

This Practice Assessment Document is designed to support and guide you towards successfully achieving the criteria set out in the *Future nurse: Standards of proficiency for registered nurses* and *Standards for education and training* (NMC 2018).

The PAD makes up a significant part of your overall programme assessment. It will need to be processed through formal University systems. Continuous assessment is an integral aspect of assessment in practice and you are expected to show evidence of consistent achievement. You should engage positively in all learning opportunities, take responsibility for your own learning and know how to access support. You will work with and receive written feedback from a range of staff including Practice Supervisors and Practice Assessors and you are required to reflect on your learning.

You are responsible for raising concerns with a nominated person in the practice setting in a timely manner. You should also alert staff to any reasonable adjustments that may be required to support your learning.

You should ensure you are familiar with your university assessment and submission processes for this document and contact the academic representative from your university, or refer to your university's intranet if you require support or advice on specific university procedures.

The Ongoing Achievement Record (OAR) is a separate document that summarises your achievements in each placement and with the main document provides a comprehensive record of your professional development and performance in practice.

You are responsible for the safekeeping and maintenance of the PAD. It should be available to your Practice Supervisor, Practice Assessor and Academic Assessor at all times when you are in placement together with the OAR. Alterations should be made in this document by crossing through with one line, with a signature and date.

You will have access to confidential information when in practice placements. The PAD should not contain any patient/service user/carer identifiable information. Contents must not be disclosed to any unauthorised person or removed, photocopied or used outside the placement or university.

People must be offered the opportunity to give and if required withdraw their informed consent to student participation in their care and staff in practice will provide guidance as required. Before approaching any patient/service user/carer for feedback you must discuss with your Practice Supervisor/Practice Assessor who will facilitate consent.

Practice Supervisor responsibilities (Registered nurse/midwife or other registered health/social care professional)

In many practice areas the student will be supported by a number of Practice Supervisors. Some areas may adopt a team based approach due to the nature of the experience.

As a Practice Supervisor you have an important role in supporting and guiding the student through their learning experience to ensure safe and effective learning. This includes facilitating learning opportunities including any reasonable adjustments the student may need to get maximum benefit from the placement. It is your responsibility to contribute to the student's assessment through the recording of regular feedback on their progress towards, and achievement of their proficiencies. Specific feedback must be provided to the Practice Assessor on the student's progress.

Supervision in other placement areas (i.e. those areas where there are no health/social care registrants)

A range of staff can support student learning and have a vital role in student learning and development though may not be contributing formally to assessment of proficiencies.

However, these staff members are encouraged to support learning and can provide valuable student feedback within the PAD on the *Record of communication/additional feedback pages*.

Practice Assessor responsibilities (Registered Nurse)

As a Practice Assessor you have a key role in assessing and confirming the student's proficiency providing assurance of student achievements and competence. This includes facilitating learning opportunities including any reasonable adjustments the student may need to get maximum benefit from the placement. You will observe the student, conduct and record student assessments informed by student reflections, feedback from Practice Supervisors and other relevant people to confirm achievement. You will liaise with the Academic Assessor scheduling communication at relevant points.

Practice Assessors must have appropriate equivalent experience of the student's field of practice.

There are numerous elements requiring assessment in practice. One or more Practice Supervisors can contribute to the assessment of some of the proficiencies in discussion with you, but they must be working in their scope of practice.

When assessing the student, you should take into account sources of evidence that encompass knowledge, skills, attitudes and the views of those receiving care. Comments should acknowledge those exceptional students who are exceeding expectations for their stage in practice or who have particularly commendable attitudes, behaviours, knowledge or skills.

If the student is not meeting the required standards this should be highlighted as a development need. If there is a cause for concern or a fitness for practice issue that requires prompt action an Action Plan should be instigated to address specific needs or concerns within a specified timeframe. In the event of this, seek guidance from the Academic Assessor and/or senior practice representative.

Academic Assessor responsibilities

Academic Assessors are Registered Nurses and are nominated for each part of the educational programme. The same Academic Assessor cannot contribute to the student assessment in consecutive parts. The Academic Assessor will work in partnership with the Practice Assessor to evaluate and recommend the student for progression for each part of the educational programme. The Academic Assessor will enable scheduled communication and collaboration with the Practice Assessor and this communication can take a variety of forms.

All communications/ additional feedback (not already recorded in the scheduled interviews) from the Practice Supervisors, Practice Assessor and Academic Assessor and other staff members needs to be recorded on the relevant pages in the PAD.

Guidance for using the PAD to facilitate learning and assessment in practice

Assessment criteria in the PAD are based on the NMC Future nurse: Standards of proficiency for registered nurses and Standards for education and training (NMC 2018). The outcome statements have been designed by the NMC to apply across all four fields of nursing practice and all care settings (NMC 2018). Students must be able to demonstrate a greater depth of knowledge and the additional more advanced skills required to meet the specific care needs of people in their chosen fields of nursing practice (NMC, 2018, p6). This Practice Assessment Document can be used in any field of practice.

Components of Assessment and Feedback (see individual university guidance/regulations)

Professional Values: Professional Values reflect a number of proficiency statements and are captured under the 4 sections of The Code (NMC 2018). All must be achieved *by the end of each placement*.

Proficiencies: These reflect aspects of the 7 Platforms, communication and relationship management skills and nursing procedures (NMC 2018). These can be assessed in a range of placements, but must be achieved at least once *by the end of the Part*.

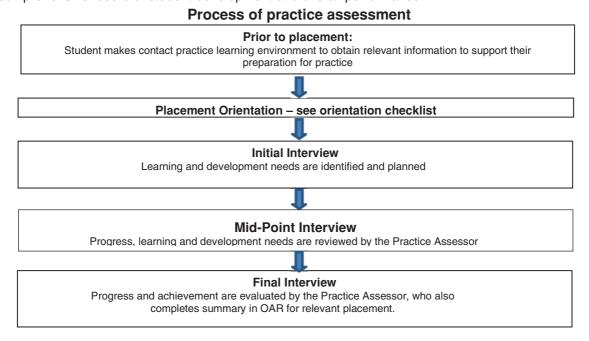

Episode of Care: This holistic assessment(s) facilitates and demonstrates the student's progress and must be achieved *by the end of the Part.*

Medicines Management: There is one assessment included in each part and each must be achieved by the end of the Part.

Patient/Service User/Carer Feedback Form: Feedback will be sought in relation to how the student cared for the person receiving care. This is not formally assessed, but will contribute to overall student feedback.

Recording Additional Experiences and Feedback: There are additional pages for the student to record reflections on their own learning and pages to record communication and additional feedback from all those supporting learning and assessment.

Ongoing Achievement Record: The OAR summarises overall achievements and provides a comprehensive record of student development and overall performance.

Further information / guidance is included in the university specific pages (overleaf) and in the Practice Assessment Document Guide

The Open University Placement Specific Information

Placement delivery

As a learner on the nursing programme you may be a student or an apprentice. The principles set out here and throughout the PAD apply to you, whichever funding route you are following. Your placements are planned according to the requirements set out in the practice learning pathways available on your module websites. These principles must be followed throughout your time studying your qualification. Your employer will have agreed the number of hours that you will be released to achieve the theory and practice requirements of the programme. Typically learners released for 34 hours per week can complete their qualification in three years, whilst those released for 26 hours per week complete their qualification in four years.

You will complete three placements during each level of the programme. You must ensure that you achieve the number of practice hours specified for each of these placements according to the practice learning pathway that underpins your route of study. Advice about the pathways is available from your university practice tutor and your link tutor.

Mandatory training

You must be up to date and stay up to date with the mandatory training provided by your employer. This supports your safety and the safety of patients or service users and colleagues whilst in practice settings. If you have a placement with another local healthcare provider, who is not your employer, you may need to undertake additional training before starting the placement. Consult your link tutor.

Reasonable adjustments in practice

If you have declared a disability including specific learning differences such as dyslexia, provided evidence of this and it is recognised on your student record by the university, reasonable adjustments will be agreed. Any reasonable adjustments in place must still enable you to meet the level of competence required to successfully achieve proficiencies, skills and procedures. Further advice is available from your link tutor.

Reasonable adjustments will be underpinned by a risk assessment, and where appropriate this will interface with any risk assessment undertaken by your employer. For example, if you become pregnant your employer will undertake a risk assessment and the university will reflect this in its own risk assessment and reasonable adjustment form.

Being supernumerary in practice

You remain an employee whilst studying your programme and will contribute to delivery of care within the workforce numbers. You will be rostered for these shifts in your substantive workplace. Your employer has agreed to release you for the equivalent of a specified number of hours per week to enable you to achieve the theory and practice hours required by the Nursing and Midwifery Council. When undertaking these hours in practice you must be supernumerary at all times and supported by a practice supervisor. This will allow you to focus on developing existing skills or learning new skills and procedures in the context of becoming a registered nurse

Accounting for your completed practice hours

At the end of every supernumerary practice shift that you work, you must enter this on the record provided for this purpose in your Practice Assessment Document (PAD). Your attendance must be verified on that day by a registered professional with whom you have worked: this will normally be your practice supervisor.

Reporting and recording sickness and absence

If you are ill or experience a significant problem and are scheduled to undertake a supernumerary practice shift you must ring the practice placement area and inform the person in charge that you will not be attending. You must also email your line manager at work, your practice supervisor/practice assessor in the placement area and your university practice tutor to inform them of your sick leave or absence. This message should be sent before the start of the sickness/absence. You must email them again to confirm the date on which you are resuming your work and studies. You must enter all days of sickness/absence on the record in your PAD whether these occur on a theory day, a supernumerary practice day or a day when you are working in the workforce numbers.

Submitting your record of attendance

At the end of every month your record of completed hours, sickness and absence must be submitted electronically to your practice tutor. Your employer may also require a copy.

Confidentiality

You must maintain the NMC requirements for confidentiality at all times and must follow the policy of the placement provider. Ensure that you do not include any patient details in reflective accounts or episodes of care that will enable them to be identified.

Gaining consent to deliver care

You and your practice supervisor/practice assessor must ensure that each patient/service user is aware of your status as a learner and that consent is obtained for you to participate in the delivery of their care. Follow the local procedure for gaining consent as this will vary dependent on the placement and intervention intended.

Safeguarding, safe practice and raising concerns

It is the responsibility of every practitioner, including learners, to ensure the wellbeing of patients/service users is protected and action taken if there are any concerns about care practices and/or interventions.

You must raise any concerns that you have regarding the care or safety of patients as soon as possible. Further advice is available in your Nursing Handbook. Make sure you are familiar with the NMC's guidance on raising concerns https://www.nmc.org.uk/standards/guidance/raising-concerns-guidance-for-nurses-and-midwives/ You should also refer to local policy and procedures. In addition to raising your concern with your practice supervisor or the person in charge, contact your practice tutor and/or your local link tutor at the earliest opportunity as they will provide support for you. Raising concerns can be worrying and the university will prioritise support for you.

Ongoing achievement record

This record is used alongside your PAD. You should provide it to your practice supervisors, practice assessors and practice tutors/academic assessors so that an ongoing summary of your progress can be recorded. It can be requested by them at any time so you must be able to give them access to it. It provides a record of your progress through the entire programme so **you must keep it safe.**

The Open University Practice Assessment Interview, (PAI) for Registered Nurse Degree Apprentices/BSc (Hons) Nursing (all fields)

Each stage of the Nursing programme includes a graded Practice Assessment Interview (PAI) as part of the assessment strategy. A PAI is a short professional discussion held between the student and their practice tutor/academic assessor. The student's practice assessor (PA) will also need to attend and contribute to the overall mark for the student, but we are asking that they do not participate in the discussion between the student and practice tutor/academic assessor.

The PA should be the PA from placement 2 at each part (1, 2 and 3) of the programme. The three practice assessment interviews during the programme will enable the student to demonstrate how they are progressing on their journey from nursing student to graduate nurse.

The PAI at each stage is based on one or more of the professional values listed in the relevant part (1, 2 or 3) of the Nursing Practice Assessment Documents (PAD). It also reflects the module materials of that stage. The topics for the three stages are:

- Stage 1: Delivering compassionate, person-/family-centred care
- Stage 2: Building interprofessional relationships
- Stage 3: Practising autonomously leadership and decision making

This professional discussion will take place within placement 2 (mid-review interview) of the practice modules (part 1: K104, part 2: K211 and part 3: K326/7/8/9) and last no longer than 20 minutes.

Students will be given the detailed guidance for the PAI on the module website six weeks before placement period 2 opens. The discussion will be held online or, if permissible, face to face. Once the meeting is concluded and the student has left the meeting, the PA will discuss the student's contribution to the discussion with the practice tutor/academic assessor and assist

in determining the mark to be awarded. This will be decided using an assessment grid based on the criteria in the categories: Excellent, Very Good, Good, Satisfactory and Requires Development. The academic assessor will enter the mark and feedback on the PAI into the PAI iCMA system.

If the student requires development they will have a second opportunity to engage in a professional discussion, based on the same values and criteria as those covered in the first opportunity.

Criteria for Assessment in Practice Overall Framework Parts 1 – 3 to be achieved by the end of the part

Guided participation in care and performing with increasing confidence and competence

Part 1

Active participation in care with minimal guidance and performing with increased confidence and competence

Part 2

Practising independently with minimal supervision and leading and coordinating care with confidence

Part 3

The decision on the level of supervision provided for students should be based on the needs of the individual student. The level of supervision can decrease with the student's increasing proficiency and confidence. (NMC, 2018, p 5)

Part 2: Active participation in care with minimal guidance and increasing confidence

'Achieved' must be obtained in all three criteria by the student

Achieved	Knowledge	Skills	Attitude and Values
YES	Has a sound knowledge base to support safe and effective practice and provide the rationale to support decision making.	Utilises a range of skills to deliver safe, person centred and evidence based care with increased confidence and in a range of contexts.	Demonstrates an understanding of professional roles and responsibilities within the multidisciplinary team. Maximises opportunities to extend own knowledge.
NO	Has a superficial knowledge base and is unable to provide a rationale for care, demonstrating unsafe practice	With supervision is not able to demonstrate safe practice and is unable to perform the activity and/or follow instructions despite repeated guidance	Demonstrates lack of self-awareness and understanding of professional role and responsibilities. Is not asking appropriate questions nor engaged with their own learning.

Professional Values in Practice (Part 2)

Students are required to demonstrate high standards of professional conduct at all times during their placements. Students should work within ethical and legal frameworks, and be able to articulate the underpinning values of The Code (NMC, 2018). Professional Values reflect a number of proficiency statements and are captured under the 4 sections of The Code.

The Practice Assessor has responsibility for assessing Professional Values though the Mid-Point review can be completed by a Practice Supervisor in liaison with the Practice Assessor.

Yes = Achieved, No = Not Achieved (Refer to Criteria for Assessment in Practice)

Yes = Achieved, No = Not Achieved (Refer	to Criteria fo	or Assessn	nent in Praction	e)
	Achieved Mid-Point Yes/No	Initial/ Date	Achieved Final Yes/No	Initial/ Date (Final)
Prioritise people				
The student maintains confidentiality in accordance with the NMC code.				
2. The student is non-judgemental, respectful and courteous at all times when interacting with patients/service users/carers and all colleagues.				
3. The student maintains the person's privacy and dignity, seeks consent prior to care and advocates on their behalf.				
4. The student is caring, compassionate and sensitive to the needs of others.				
5. The student understands their professional responsibility in adopting and promoting a healthy lifestyle for the well-being of themselves and others.				
Practise effectively				
6. The student maintains consistent, safe and person- centred practice based on best available evidence. (4 PEC)				
7. The student manages appropriate and constructive relationships within the inter-disciplinary team with the intent of building professional relationships.				
8. The student makes consistent effort to engage in and reflect on their learning, contributing to their own professional development and supporting the learning and development of others.				
9. The student demonstrates the potential to lead and work autonomously, seeks support where appropriate and responds positively to feedback.				
Preserve safety				
10. The student demonstrates openness (candour), trustworthiness and integrity.				
11. The student reports any concerns to a member of staff when appropriate e.g. safeguarding				
12. The student demonstrates the appropriate listening skills, seeks clarification where appropriate and carries out instructions safely.				
13. The student is able to recognise and work within the limitations of own knowledge, skills and professional boundaries and understand that they are responsible for their own actions.				

	Achieved Mid-Point Yes/No	Initial/ Date	Achieved Final Yes/No	Initial/ Date (Final)
Promote professionalism and trust				
14. The student's personal presentation and dress cod in accordance with the local policy.	e is			
15. The student maintains an appropriate professional attitude regarding punctuality and communicates appropriately if unable to attend placement.				
16. The student demonstrates that they use self-reflect and supervision to gain insight into their own values, taking into consideration the possible impact on the ca relationship and decision making process.

Patient/Service User/Carer Feedback

Practice Supervisors/Practice Assessors should obtain consent from patients/service users/carers who should feel able to decline to participate. Please choose one of the following four forms which you feel is appropriate for your patient/carer/service user

Form 1

We would like to hear your views about the way the student nurse has supported your care. Your feedback will not change the way you are cared for and will help the student nurse's learning.

Carer/Relative

The Patient/Service User

Tick if you are:

How happy were	Very Happy	Нарру	I'm not sure	Unhappy	Very unhappy
you with the way the student nurse		• • • · · ·	000	(0)	25
cared for you?	0	0		0	0
listened to you?	0	0	0	0	0
understood the way you felt?	0	0	0	0	0
talked to you?	\circ	0	0	\circ	0
showed you respect?	0	0	0	0	0
What did the student nurse do well? What could the student nurse have done differently?					
What could the student nurse have done differently?

Professional Values in Practice (Part 2)

Students are required to demonstrate high standards of professional conduct at all times during their placements. Students should work within ethical and legal frameworks, and be able to articulate the underpinning values of The Code (NMC, 2018). Professional Values reflect a number of proficiency statements and are captured under the 4 sections of The Code.

The Practice Assessor has responsibility for assessing Professional Values though the Mid-Point review can be completed by a Practice Supervisor in liaison with the Practice Assessor.

Yes = Achieved, No = Not Achieved (Refer to Criteria for Assessment in Practice)

Yes = Achieved, No = Not Achieved (Refer	to Criteria fo	or Assessn	nent in Praction	e)
	Achieved Mid-Point Yes/No	Initial/ Date	Achieved Final Yes/No	Initial/ Date (Final)
Prioritise people				
The student maintains confidentiality in accordance with the NMC code.				
2. The student is non-judgemental, respectful and courteous at all times when interacting with patients/service users/carers and all colleagues.				
3. The student maintains the person's privacy and dignity, seeks consent prior to care and advocates on their behalf.				
4. The student is caring, compassionate and sensitive to the needs of others.				
5. The student understands their professional responsibility in adopting and promoting a healthy lifestyle for the well-being of themselves and others.				
Practise effectively				
6. The student maintains consistent, safe and person- centred practice based on best available evidence. (4 PEC)				
7. The student manages appropriate and constructive relationships within the inter-disciplinary team with the intent of building professional relationships.				
8. The student makes consistent effort to engage in and reflect on their learning, contributing to their own professional development and supporting the learning and development of others.				
9. The student demonstrates the potential to lead and work autonomously, seeks support where appropriate and responds positively to feedback.				
Preserve safety				
10. The student demonstrates openness (candour), trustworthiness and integrity.				
11. The student reports any concerns to a member of staff when appropriate e.g. safeguarding				
12. The student demonstrates the appropriate listening skills, seeks clarification where appropriate and carries out instructions safely.				
13. The student is able to recognise and work within the limitations of own knowledge, skills and professional boundaries and understand that they are responsible for their own actions.				

	Achieved Mid-Point Yes/No	Initial/ Date	Achieved Final Yes/No	Initial/ Date (Final)
Promote professionalism and trust	100,110		100,110	
14. The student's personal presentation and dress code is in accordance with the local policy.				
15. The student maintains an appropriate professional attitude regarding punctuality and communicates appropriately if unable to attend placement.				
16. The student demonstrates that they use self-reflection and supervision to gain insight into their own values, taking into consideration the possible impact on the caring relationship and decision making process.

Record of peer feedback

Feedback is an essential part of the learning process. Through engaging in peer review and receiving feedback from a number of peers, students are exposed to a greater diversity of perspectives as well as enabling students to develop skills in peer review and feedback.

These records can be completed by peers i.e. other students who have worked alongside you or have had the opportunity to discuss your learning needs with you. If you have facilitated a teaching session on placement you can use the form below to obtain feedback.

Peer feedback

Professional Values in Practice (Part 2)

Students are required to demonstrate high standards of professional conduct at all times during their placements. Students should work within ethical and legal frameworks, and be able to articulate the underpinning values of The Code (NMC, 2018). Professional Values reflect a number of proficiency statements and are captured under the 4 sections of The Code.

The Practice Assessor has responsibility for assessing Professional Values though the Mid-Point review can be completed by a Practice Supervisor in liaison with the Practice Assessor.

can be completed by a Practice Supervisor in liaison with the Yes = Achieved, No = Not Achieved (Refer			ment in Practic	:e)
	Achieved Mid-Point Yes/No	Initial/ Date	Achieved Final Yes/No	Initial/ Date (Final)
Prioritise people				
The student maintains confidentiality in accordance with the NMC code.				
2. The student is non-judgemental, respectful and courteous at all times when interacting with patients/service users/carers and all colleagues.				
3. The student maintains the person's privacy and dignity, seeks consent prior to care and advocates on their behalf.				
4. The student is caring, compassionate and sensitive to the needs of others.				
5. The student understands their professional responsibility in adopting and promoting a healthy lifestyle for the well-being of themselves and others.				
Practise effectively				
6. The student maintains consistent, safe and person- centred practice based on best available evidence. (4 PEC)				
7. The student manages appropriate and constructive relationships within the inter-disciplinary team with the intent of building professional relationships.				
8. The student makes consistent effort to engage in and reflect on their learning, contributing to their own professional development and supporting the learning and development of others.				
9. The student demonstrates the potential to lead and work autonomously, seeks support where appropriate and responds positively to feedback.				
Preserve safety				
10. The student demonstrates openness (candour), trustworthiness and integrity.				
11. The student reports any concerns to a member of staff when appropriate e.g. safeguarding				
12. The student demonstrates the appropriate listening skills, seeks clarification where appropriate and carries out instructions safely.				
13. The student is able to recognise and work within the limitations of own knowledge, skills and professional boundaries and understand that they are responsible for their own actions.				

	Achieved Mid-Point Yes/No	Initial/ Date	Achieved Final Yes/No	Initial/ Date (Final)
Promote professionalism and trust				
14. The student's personal presentation and dress code in accordance with the local policy.	is			
15. The student maintains an appropriate professional attitude regarding punctuality and communicates appropriately if unable to attend placement.				
16. The student demonstrates that they use self-reflection and supervision to gain insight into their own values, taking into consideration the possible impact on the caring relationship and decision making process.

Record of peer feedback

Feedback is an essential part of the learning process. Through engaging in peer review and receiving feedback from a number of peers, students are exposed to a greater diversity of perspectives as well as enabling students to develop skills in peer review and feedback.

These records can be completed by peers i.e. other students who have worked alongside you or have had the opportunity to discuss your learning needs with you. If you have facilitated a teaching session on placement you can use the form below to obtain feedback.

Part 3, No. 4								
Recognises signs of deterioration (mental distress/emotional								
vulnerability/physical symptoms)								
and takes prompt and								
appropriate action to prevent or								
reduce risk of narm to the person								
positive behavioural therapy or								
distraction and diversion								
strategies.								
Part 3, No. 13								
Manages the care of people								
receiving fluid and nutrition via								
infusion pumps and devices								
including the administration of								
medicines as required in line with								
local policy.								

Part 2 Episode of Care

This assessment must be completed by the end of Part 2 Guidelines

assessment and understanding of commonly encountered presentations. Professionalism underpins all aspects of the student's performance. in caring for an individual with complex health care needs. Within this episode students should demonstrate skills to undertake a comprehensive The practice assessor and student will identify an appropriate episode of direct care involving meeting the needs of a group of people receiving care or

The aim of this assessment is to demonstrate the student's progression in the following 5 platforms within the *Future Nurse: Standards of proficiency (including skills from annexe A and B)* (NMC 2018) **in the context of their intended field(s) of practice:**

- Promoting health and preventing ill health
- Assessing needs and planning care
- Providing and evaluating care
- Leading and managing nursing care and working in teams
- Improving safety and quality of care

Effective communication and relationship management skills underpin all aspects of care. (Annexe A)

adjustment applying understanding of mental capacity and health legislation as appropriate. Students are required to use appropriate therapeutic approaches and techniques considering the person's motivation, capacity and need for reasonable

Learning outcomes

The student is able to:

- person receiving care/family and the multidisciplinary team. Provide safe, person-centred care, evidence based care in an increasingly confident manner, within an appropriate timeframe in partnership with the
- Ņ and physical health and wellbeing of the persons receiving care e.g. motivational interview techniques. Identify and use appropriate opportunities and effective communication skills to explore the importance of healthy lifestyle choices in relation to the mental
- ω centred, evidence based care. Demonstrate that they can undertake a 'whole person assessment' and effectively contribute to the decision making process and provision of safe, person-
- Demonstrate that they can co-ordinate the nursing care of a small group of people/person with complex care needs, demonstrating understanding of risk assessment and management and can access appropriate support and resources as required using distraction and diversion strategies.

4.

Ö Demonstrate their potential to work more independently, making the most of opportunities to extend knowledge, skills and practice

Student reflection on an episode of care	
Within your reflection describe the episode of care and how you assessed, planned, delivered and evaluated person-centred care.	Describe how you have begun to work more independently in the provision of care and the decision making process.
What did you do well?	
What would you have done differently?	

Date:	Practice Assessor's signature:	Practice Asses
Date:	ature:	Student's signature:
III require a re-assessment and the Academic Assessor must be informed	If any of the Standards are 'Not Achieved' this will require a re-assessment and	If any of
	Leading nursing care and working in teams Uses effective communication skills to manage the care of a small group of people/individuals with complex care needs, demonstrating the ability to prioritise care recognising when and whom to refer/delegate to as appropriate.	Leading nursing care and words Uses effective communication so care of a small group of people/ complex care needs, demonstration prioritise care recognising when refer/delegate to as appropriate
	Improving safety and quality of care Accurately undertakes risks assessments and demonstrates an understanding of local and national frameworks for managing and reporting risks.	Improving safety Accurately under demonstrates an national framewo risks.
	Providing and evaluating care Demonstrates safe, compassionate, personcentred, evidence based care that respects and maintains the person/persons dignity and human rights when managing a range of commonly encountered presentations e.g. anxiety, pain, restlessness, confusion.	Providing and evaluating care Demonstrates safe, compassion centred, evidence based care th maintains the person/persons dirights when managing a range cencountered presentations e.g. restlessness, confusion.
	Assessing needs and planning care Accurately undertakes a comprehensive assessment and identifies need and plans care for a range of health needs.	Assessing needs and Accurately undertakes a assessment and identifial a range of health needs
	Promoting health and preventing ill health Applies knowledge of healthy lifestyle choices in relation to the person/persons physical health, mental health and wellbeing. e.g. smoking cessation.	Promoting healt Applies knowledg relation to the per mental health and cessation.

Part 2 Episode of Care 2

This assessment must be completed by the end of Part 2. Guidelines

social care needs (may be a single or a group of individuals depending on the care environment). Professionalism underpins all aspects of the student's performance. The practice assessor and student will identify an appropriate episode of direct care involving caring for people with increasingly complex health and

The aim of this assessment is to demonstrate the student's progression in the following six platforms within the *Future Nurse: Standards of proficiency* (including skills from annexe A and B) (NMC 2018) in the context of their field of nursing:

- **Promoting Health**
- Assessing needs and planning care
- Providing and evaluating care
- Leading nursing care and working in team
- Improving safety and quality of care
- Coordinating care

understanding of mental capacity and health legislation as appropriate Effective communication and relationship management skills underpin all aspects of care (Annexe A)
Students are required to use appropriate approaches and techniques considering the person's motivation, capacity and need for reasonable adjustment applying

Learning outcomes

The student is able to:

- Demonstrate and applies knowledge of a range of mental health and physical health conditions in the assessment, planning, implementation and evaluation of person centred, evidence based care.
- Ņ Demonstrate understanding of the contribution of social influences, health literacy, behaviours and lifestyle choices to the mental health and physical health outcomes in people, families and communities
- ω Demonstrate relevant knowledge in the prioritisation of care and is able to identify changes in a person's condition and responds appropriately
- 4 Interact and engage confidently with families/carers and members of the multidisciplinary team in coordinating care for a small group of people (or in caring for an individual with complex care needs).
- Ò Accurately undertake risk assessments demonstrating understanding of risk management and health improvement strategies

Student reflection on an episode of care	
Within your reflection describe the episode of care and how you assessed, planned, delivered and evaluated patient care.	Describe how you have begun to work more independently in the provision of care and the decision making process.
What did you do well?	
What would you have done differently?	areas of practice?

Promoting health and preventing ill health Discusses the possible influences on the person's group of people's mental health and physical health and can highlight a range of factors impacting on them and the wider community. Assessing needs and planning care Utilises relevant knowledge and skills to undertake a comprehensive assessment, continually monitoring a person's condition, interpret signs of deterioration or distress and escalate appropriately. Providing and evaluating care Applies relevant knowledge and skills in the provision of more complex person-centred, evidence based care demonstrating effective communication skills and quality of care Undertakes relevant risk assessments, discusses risk management and can propose improvements to enhance the quality of care Coordinating and leading nursing care Coordinating and leading nursing care Coordinating and leading nursing care Coordinating independence and their families in maintaining independence and minimising disruption to their lifestyle, demonstrating understanding of the need for multi- agency working.	sor feedback YES = Achieved No = Not Achieved (Refer to Criteria for Assessn treflection, your observation and discussion of the episode of care, please assess the expectation and discussion of the episode of care, please assessn the expectation and discussion of the episode of care, please assessn the expectation and discussion of the episode of care and the achieved No = Not Achieved (Refer to Criteria for Assessn the expectation and discussion of the episode of care, please assessn the expectation and discussion of the episode of care and the achieved No = Not Achieved (Refer to Criteria for Assessn the expectation and discussion of the episode of care, please assessn the expectation and discussion of the episode of care and the achieved No = Not Achieved (Refer to Criteria for Assessn the expectation and discussion of the episode of care, please assess and discussion of the episode of care and planning care and discussion in the provenents and leading nursing care and planning independence and planning independence and planning independence and planning of the need for multi-	s will require a re-assessment and the Academic Assessor must be informed Date:	If any of the Standards are 'Not Achieved' this will require a re-assessment and Student's signature: Practice Assessor's signature:

Part 2 Medicines Management

This assessment must be completed by the end of Part 2 where the student safely administers medicines to a group of patients/service users or a caseload of patients/service users in community settings

normally be undertaken with a small group of patients/service users or caseload. Professionalism underpins all aspects of the student's performance During Part 2 the student should be developing their knowledge, skills and competencies in relation to the safe administration of medicines. This assessment should

The student must be allowed a number of practice opportunities to administer medicines under supervision prior to this assessment

The student must work within the legal and ethical frameworks that underpin safe and effective medicines management and work within national and local policies

Prescribers (The Royal Pharmaceutical Society 2016) Regulatory requirements: Future Nurse: Standards of Proficiency for Registered Nurses (NMC 2018), The Code (NMC 2018), A Competency Framework for all

The aim of this assessment is to demonstrate the student's knowledge and competence in administering medications safely.

Learning outcomes (Annexe B)

The student is able to:

- Apply knowledge of pharmacology, how medicines act and interact in the systems of the body, and their therapeutic action
- Ņ Carry out an initial and continued assessment of people receiving care and their ability to self-administer their own medications
- ω Prepare medications where necessary, safely and effectively administer these via common routes, including all injection routes where appropriate, maintains accurate records and is aware of the laws, policies, regulations and guidance which underpin medicines management
- 4. Safely and accurately perform medicines calculations for a range of medications.
- 57 Coordinate the process and procedures involved in managing the safe discharge, move or transfer between care settings of the person
- <u>ე</u> Maintain safety and safeguard the patient from harm, including non-adherence, demonstrating understanding of the Mental Capacity Act (DH 2005) the Mental Health Act (DH 1983, amended 2007), where appropriate

YES = Achieved No = No not care and the Wes/No 7. Wes/No		including discharge/safe transfer where appropriate		Cliecks prescription chart of identification party	
YES = Achieved No = Not Achieved Competency			_	 Asks patient/service user. 	
YES = Achieved Competency Yes/No 7. Prepares medication safely. Checks expiry date. Notes any special instructions/contraindications. 8. Calculates doses accurately and safely. • Demonstrates to assessor the component parts of the calculation. • Minimum of 3 calculations undertaken. 9. Checks and confirms the patient/service user's identity and establishes consent. (ID band or other confirmation if in own home) 10. Administers or supervises self-administration safely under direct supervision. Verifies that oral medication has been swallowed. 11. Describes/demonstrates the procedure in the event of reduced capacity and non-compliance 12. Safely utilises and disposes of equipment. 13. Maintains accurate records. • Records, signs and dates when safely administered 14. Monitors effects and is aware of common side effects and how these are managed.				6. Checks for allergies demonstrating an understanding of the risks and managing these as appropriate	
YES = Achieved Competency Yes/No Competency The Yes/No Competency 7. Prepares medication safely. Checks expiry date. Notes any special instructions/contraindications. 8.
