This work is in collaboration with HEE Regions across England involving a range of stakeholders including universities and practice partners. This Practice Assessment Document has been developed from the Pan London Practice Assessment Document for pre-registration nursing that was developed by the Pan London Practice Learning Group (PLPLG).

Terminology

Throughout the document the term student is used. "Student" has been used to be consistent with the terminology used by the NMC in their documentation *Standards for pre-registration Nursing Associate* Programmes (2018).

Protected learning time

Organisations must ensure that nursing associate students have protected learning time in line with one of these two options (NMC 2018)

Option A: nursing associate students are supernumerary when they are learning in practice Option B: nursing associate students who are on work-placed learning routes:

- are released for at least 20 percent of the programme for academic study
- are released for at least 20 percent of the programme time, which is assured protected learning time in external practice placements, enabling them to develop the breadth of experience required for a generic role, and
- protected learning time must be assured for the remainder of the required programme hours.

Welcome to the Practice Assessment Document (PAD)

Student responsibilities

This Practice Assessment Document is designed to support and guide you towards successfully achieving the criteria set out in the *Standards of proficiency for nursing associates* and *Standards for education and training* (NMC 2018).

The PAD makes up a significant part of your overall programme assessment. It will need to be processed through formal University systems. Continuous assessment is an integral aspect of assessment in practice and you are expected to show evidence of consistent achievement. You should engage positively in all learning opportunities, take responsibility for your own learning and know how to access support. You will work with and receive written feedback from a range of staff including Practice Supervisors and Practice Assessors and you are required to reflect on your learning.

You are responsible for raising concerns with a nominated person in the practice setting in a timely manner. You should also alert staff to any reasonable adjustments that may be required to support your learning.

You should ensure you are familiar with your university assessment and submission processes for this document and contact the academic representative from your university, or refer to your university's intranet if you require support or advice on specific university procedures.

The Ongoing Achievement Record (OAR) is a separate document that contains two parts. Part A summarises your achievements in each placement and with the main document provides a comprehensive record of your professional development and performance in practice. Part B has been developed by your university to reflect local requirements.

You are responsible for the safekeeping and maintenance of the PAD. It should be available to your Practice Supervisor, Practice Assessor and Academic Assessor at all times when you are in placement together with the OAR. Alterations should be made in this document by crossing through with one line, with a signature and date.

You will have access to confidential information when in practice placements. The PAD should not contain any patient/service user/carer identifiable information. Contents must not be disclosed to any unauthorised person or removed, photocopied or used outside the placement or university.

People must be offered the opportunity to give and if required withdraw their informed consent to student participation in their care and staff in practice will provide guidance as required. Before approaching any patient/service user/carer for feedback you must discuss with your Practice Supervisor/Practice Assessor who will facilitate consent.

Practice Supervisor responsibilities (Registered nurse/nursing associate or other registered health/social care professional)

In many practice areas the student will be supported by a number of Practice Supervisors. Some areas may adopt a team based approach due to the nature of the experience.

As a Practice Supervisor you have an important role in supporting and guiding the student through their learning experience to ensure safe and effective learning. This includes facilitating learning opportunities including any reasonable adjustments the student may need to get maximum benefit from the placement. It is your responsibility to contribute to the student's assessment through the recording of regular feedback on their progress towards, and achievement of their proficiencies. Specific feedback must be provided to the Practice Assessor on the student's progress.

Supervision in other placement areas (i.e. those areas where there are no health/social care registrants)

A range of staff can support student learning and have a vital role in student learning and development though may not be contributing formally to assessment of proficiencies. However, these staff members are encouraged to support learning and can provide valuable student feedback within the PAD on the *Record of communication/additional feedback pages*.

Practice Assessor responsibilities (Registered nurse/nursing associate)

As a Practice Assessor you have a key role in assessing and confirming the student's proficiency providing assurance of student achievements and competence. This includes facilitating learning opportunities including any reasonable adjustments the student may need to get maximum benefit from the placement. You will observe the student, conduct and record student assessments informed by student reflections, feedback from Practice Supervisors and other relevant people to confirm achievement. You will liaise with the Academic Assessor scheduling communication at relevant points.

There are numerous elements requiring assessment in practice. One or more Practice Supervisors can contribute to the assessment of some of the proficiencies in discussion with you, but they must be working in their scope of practice.

When assessing the student, you should take into account sources of evidence that encompass knowledge, skills, attitudes and the views of those receiving care. Comments should acknowledge those exceptional students who are exceeding expectations for their stage in practice or who have particularly commendable attitudes, behaviours, knowledge or skills.

If the student is not meeting the required standards this should be highlighted as a development need. If there is a cause for concern or a fitness for practice issue that requires prompt action, an Action Plan should be instigated to address specific needs or concerns within a specified timeframe. In the event of this, seek guidance from the Academic Assessor and/or senior practice representative.

Academic Assessor responsibilities

Academic Assessors are Registered Nurses or Registered Nursing Associate and are nominated for each part of the educational programme. The same Academic Assessor cannot contribute to the student assessment in consecutive parts. The Academic Assessor will work in partnership with the Practice Assessor to evaluate and recommend the student for progression for each part of the educational programme. The Academic Assessor will enable scheduled communication and collaboration with the Practice Assessor and this communication can take a variety of forms.

Flexibility in assessment approach

In exceptional circumstances if a student does not have access to specific learning opportunities to enable assessment of all the proficiencies in year 1/ PAD 1 they may be permitted to meet these in PAD 2 as per their local university policy – see the university specific pages for details. Where required these proficiencies must be agreed by the practice assessor who must ensure she/he has liaised with the academic assessor. The student must then present PAD 1 at the beginning of year 2 to their practice assessor to ensure completion of the identified proficiencies in PAD 2.

On occasions students may also have the opportunity to meet additional proficiencies in Year 1/ PAD 1 as per local university policy. These can be recorded on the 'Additional proficiencies' page in this PAD by the Practice Assessor. Achievement of these must then be explored as part of the initial interview in PAD 2, as further experience to consolidate these proficiencies may be required.

All communications/ additional feedback (not already recorded in the scheduled interviews) from the Practice Supervisors, Practice Assessor and Academic Assessor and other staff members needs to be recorded on the relevant pages in the PAD.

Guidance for using the PAD to facilitate learning and assessment in practice

Assessment criteria in the PAD are based on the NMC *Standards of proficiency for nursing associates* (NMC 2018).

Components of Assessment and Feedback (see individual university guidance/regulations)

Professional Values: Professional Values reflect a number of proficiency statements and are captured under the 4 sections of The Code (NMC 2018). All must be achieved by the end of each placement period.

Proficiencies: These reflect aspects of the 6 Platforms, communication and relationship management skills and nursing procedures (NMC 2018). These can be assessed in a range of placements, but must be achieved at least once by the end of the year. There may be occasions when a small number may be achieved in PAD 2 – depending on local university policy.

Episode of Care: This holistic assessment(s) facilitates and demonstrates the student's progress and must be achieved *by the end of the year.*

Medicines Management: There is one assessment included in each PAD and this must be achieved by the end of the year.

Patient/Service User/Carer Feedback Form: Feedback will be sought in relation to how the student cared for the person receiving care. This is not formally assessed, but will contribute to overall student feedback.

Recording Additional Experiences and Feedback: There are additional pages for the student to record reflections on their own learning and pages to record communication and additional feedback from all those supporting learning and assessment.

Ongoing Achievement Record: The OAR summarises overall achievements and provides a comprehensive record of student development and overall performance.

Prior to placement: Student makes contact to obtain relevant information to support their preparation for practice (for placements external to workplace) Placement Orientation – see orientation checklist Initial Interview Learning and development needs are identified and planned Mid-Point Interview Progress, learning and development needs are identified by the Practice Assessor Final Interview Progress and achievement are explored by the Practice Assessor, who also completes summary in OAR.

Further information / guidance is included in the university specific pages (overleaf) and in the Practice Assessment Document Guide Insert HEI guidelines.

2 pages maximum

This can include your AEIs assessment requirements such as number of attempts and referral processes.

Reasonable adjustments are referred to in the PAD but you may wish to add specific AEI processes here or in your student handbook.

Criteria for Assessment in Practice Overall Framework; these criteria should be achieved by the end of each year.

Guided participation in care and performing with increasing knowledge, skills and confidence. Practising independently with minimal supervision, provides and monitors care, demonstrating increasing knowledge skills and confidence.

Year 1

Year 2

PAD 1: Guided participation in Care

'Achieved' must be obtained in all three criteria by the student

Achieved	Knowledge	Skills	Attitude and values
YES	Is able to identify the appropriate knowledge base required to deliver safe, person centred care under some guidance.	In commonly encountered situations is able to utilise appropriate skills in the delivery of person centred care with some guidance.	Is able to demonstrate a professional attitude in delivering person centred care. Demonstrates positive engagement with own learning.
NO	Is not able to demonstrate an adequate knowledge base and has significant gaps in understanding, leading to poor practice.	Under direct supervision is not able to demonstrate safe practice in delivering care despite repeated guidance and prompting in familiar tasks.	Inconsistent professional attitude towards others and lacks self-awareness. Is not asking questions nor engaging with own learning needs.

Professional Values in Practice

Students are required to demonstrate high standards of professional conduct at all times during their placements. Students should work within ethical and legal frameworks, and be able to articulate the underpinning values of The Code (NMC, 2018). Professional Values reflect a number of proficiency statements and are captured under the 4 sections of The Code. (1 BAP 1.2)

The Practice Assessor has responsibility for assessing Professional Values though the Mid-Point review can be completed by a Practice Supervisor in liaison with the Practice Assessor.

Yes = Achieved, No = Not Achieved (Refer to Criteria for Assessment in Practice)

	Achieved Mid-Point Yes/No	Initial/ Date	Achieved Final Yes/No	Initial/ Date (Final)
Prioritise people				
1. The student maintains confidentiality in accordance with the NMC code.(1 BAP 1.1)				
2. The student is non-judgemental, respectful and courteous at all times when interacting with patients/service users/carers and all colleagues. (1 BAP 1.10, BAP 1.11 A 1.8)				
3. The student maintains the person's privacy and dignity, seeks consent prior to care, challenges discriminatory behaviour and advocates on their behalf. (1 BAP 1.4, 1 BAP 1.11, 3PMC 3.8, 3PMC 3.21)				
4. The student is caring, compassionate and sensitive to the needs of others. (1 BAP 1.11)				
5. The student understands their professional responsibility in adopting and promoting a healthy lifestyle for the well-being of themselves and others. (1 BAP 1.5, 1.6)				
Practise effectively				
6. The student maintains consistent, safe and personcentred practice. (1BAP 1.11, 3PMC 3.1)				
7. The student is able to work effectively within the inter- disciplinary team demonstrating an awareness of the roles, responsibilities and scope of practice of the team members with the intent of building professional relationships. (1BAP 1.10, 4 WIT 4.1)				
8. The student makes a consistent effort to engage in the requisite standards of care and learning based on best available evidence. (1 BAP 1.7, 1.15, 1.17)				
Preserve safety				
9. The student demonstrates openness (candour), trustworthiness and integrity. (1 BAP 1.3)				
10. The student reports any concerns to the appropriate professional member of staff when appropriate e.g. safeguarding. (1BAP 1.3, 1BAP.1.12, 3PMC 3.7, 3PMC 3.24)				
11. The student demonstrates the ability to listen, seek clarification and carry out instructions safely. (A1.1, A1.7)				
12. The student is able to recognise and work within the limitations of own knowledge, skills and professional boundaries and understand that they are responsible for their own actions. (1BAP 1.1, 1BAP 1.15)				

		Achieved Mid-Point Yes/No	Initial/ Date	Achieved Final Yes/No	Initial/ Date (Final)
Promote professionalism and trust				100/110	
13. The student's personal presentation and dress cod in accordance with the local policy. (1 BAP 1.16)	de is				
14. The student maintains an appropriate professional attitude regarding punctuality and communicates appropriately if unable to attend placement. (1BAP 1.1, 1BAP 1.16)					
15. The student demonstrates that they are self-aware and can recognise their own emotions and those of others in different situations. (1BAP 1.8, 1BAP 1.10, 1BAP 1.15))

Assessment of Proficiencies

Incorporating Platforms 1 – 6
Annexe A: Communication and relationship management skills
Annexe B: Procedures to be undertaken by the nursing associate

These proficiencies reflect the Standards of Proficiency for Nursing Associates (NMC 2018).

Assessment of Proficiencies are undertaken across the year. These can be assessed in a range of placements but need to be assessed as Achieved (YES) at least once by the end of the year. If a proficiency is assessed as Achieved (YES) early in the year it is expected that the student maintains that level of competence.

The Grade Descriptors are 'Yes' (this proficiency has been achieved), 'No' (this proficiency has not been achieved). Refer to Criteria for Assessment in Practice on page 7 for further details.

The Practice Supervisor can contribute to the assessment of some of these proficiencies by providing specific feedback regarding the student level of performance and achievement to the Practice Assessor in line with the SSSA.

Flexibility in assessment approach

In exceptional circumstances if a student does not have access to specific learning opportunities to enable assessment of all the proficiencies in year 1/ PAD 1 they may be permitted to meet these in PAD 2 as per their local university policy – see the university specific pages for details. Where required these proficiencies must be agreed by the practice assessor who must ensure she/he has liaised with the academic assessor. The student must then present PAD 1 at the beginning of year 2 to their practice assessor to ensure completion of the identified proficiencies in PAD 2.

On occasions students may also have the opportunity to meet additional proficiencies in Year 1/ PAD 1 as per local university policy. These can be recorded on the 'Additional proficiencies' page in this PAD by the Practice Assessor. Achievement of these must then be explored as part of the initial interview in PAD 2, as further experience to consolidate these proficiencies may be required

PAD 1 Assessment of Performance: The individual completing the assessment should draw on a range of observed experiences in which the student demonstrates the required knowledge, skills, attitudes and values to achieve high quality person-centred/family-centred care, ensuring all care is underpinned by effective communication skills.

		YES = Achieved, NO = Not Achieved

Additional Proficiencies

On occasions students may also have the opportunity to meet additional proficiencies in Year 1/ PAD 1 as per their local university Policy. These can be recorded below by the Practice Assessor. Achievement of these must then be explored as part of the initial interview in PAD 2, as further experience to consolidate these proficiencies may be required.

The individual completing the assessment should draw on a range of observed experiences in which the student demonstrates the required knowledge, skills, attitudes and values to achieve high quality person-centred/family- centred care, ensuring all care is underpinned by effective communication skills.

Proficiency	Achieved YES / NO	Comments	Signature of Practice Assessor / Date

PAD 1 Episode of Care - Formative

(This assessment is to support development/ feedback and can be facilitated by a practice supervisor)

There is also a summative assessment required before final submission of PAD 1.

Guidelines

The practice supervisor/assessor and student will identify an appropriate episode of direct care to enable the student to demonstrate effective communication and relationship management skills (Annex A) in promoting health and preventing ill health (2 PHPIH). Professionalism underpins all aspects of the student's performance. (BAP 1)

Students are required to use appropriate approaches and techniques considering the person's motivation, capacity and need for reasonable adjustment applying understanding of mental capacity and health legislation as appropriate.

Learning outcomes

The student is able to:

- 1. Work in partnership with the person receiving care, their families and carers (where appropriate), to provide evidence based, compassionate and safe nursing care (3PMC 3.5).
- 2. Demonstrate the underpinning communication skills for providing and monitoring care (3 PMC 3.4, A 1.2,1.5, 1.11)
- 3. Communicate effectively to support people to prevent ill health and manage any health challenges (2PHPIH 2.2)
- 4. Identify the impact of lifestyle choices on the individual's mental and physical health and wellbeing and demonstrates the principles of health promotion and preventing ill health. (2 PHPIH 2.1)
- 5. Demonstrate effective skills for working in professional teams (4 WIT 4.1)
- 6. Demonstrate that they have maintained professional values and demonstrates knowledge of safety and safeguarding for the person receiving care and the carers and/or family. (1 BAP 1.1)

Student reflection on an episode of care				
Within your reflection, describe the episode of care and how you communicated effectively to promote health and prevent ill health.	What did you do well?			
	What would you have done differently?			

Practice Assessor feedback			
	tion and di	iscussion of the episode of care, please assess and comment on	the following:
Yes = Achieved,	No = Not	Achieved (Refer to Criteria for Assessment in Practice)	
Standard of proficiency	Yes/No	Comments	
Applies the principles of health promotion and improvement as appropriate when caring for the individual and their families and demonstrate understanding of the importance of health screening. (2 PHPIH 2.1, 2.4, 2.7)			
Demonstrates understanding of the contribution of the individuals social circumstances, behaviours and lifestyle choices to their mental, physical and behavioural health outcomes. (2 PHPIH 2.6)			
Uses appropriate verbal and non-verbal communication skills to explain to the individual and family how their lifestyle choices may influence their health and checks understanding using clarification techniques. (A1.1, A1.3, A 1.4, A1.7, A2.2)			
Utilises a range of communication skills when working with others in the team, and recognises when to refer to others in order to provide an accurate response. (1.BAP 1.9, A2.7, A4.1)			
Recognises how a person's capacity affects their ability to make decisions about their own care and to give or withhold consent. (3 PMC 3.21)

PAD 1 Medicines Management

This assessment must be completed by the end of PAD 1 where the student safely administers medicines to a group of patients/service users or a caseload of patients/service users in community settings.

During PAD 1 the student should be developing their knowledge, skills and competencies in relation to the safe administration of medicines. This assessment should normally be undertaken with a small group of patients/service users or caseload.

The student must be allowed a number of practice opportunities to administer medicines under supervision prior to this assessment.

The student must work within the legal and ethical frameworks that underpin safe and effective medicines management and work within national and local policies

Regulatory requirements: Standards of proficiency for nursing associates (NMC 2018), The Code (NMC 2015), A Competency Framework for all Prescribers (The Royal Pharmaceutical Society 2016)

The aim of this assessment is to demonstrate the student's knowledge and competence in administering medications safely.

Learning outcomes (Annexe B 10.1 – 10.10)

The student is able to:

- 1. Demonstrate and apply knowledge to recognise how medicines act and interact in the systems of the body, their therapeutic actions, contraindications and side effects. (3 PMC 3.15, 3.16, A10.3)
- 2. Carry out an initial and continued assessment of people receiving care and their ability to self-administer their own medications. (B10.1)
- 3. Prepare medications where necessary, safely and effectively administer these via common routes, maintains accurate records and is aware of the laws, policies, regulations and guidance which underpin medicines management. (B10.4)
- 4. Safely and accurately perform medicines calculations for a range of medications. (1BAP 1.13, B10.2)
- 5. Coordinate the process and procedures involved in managing the safe discharge, move or transition between care settings of the person. (6 CIC 6.6)
- 6. Maintain safety and safeguard the patient from harm, including non-compliance, demonstrating understanding of the Mental Capacity Act (DH 2005) the Mental Health Act (DH 1983, amended 2007), where appropriate. (5ISQC 5.1)

	YES = Achieved No = Not Achieved						
	Competency						
1.	Is aware of the patient/service user's plan of care and the reason for medication demonstrating knowledge of pharmacology for commonly prescribed medicines within the practice area.		7.	Prepares medication safely. Checks expiry date. Notes any special instructions/contraindications.			
2.	Communicates appropriately with the patient/service user. Provides clear and accurate information and checks understanding.		8.	Calculates doses accurately and safely. Demonstrates to assessor the component parts of the calculation. Minimum of 3 calculations undertaken.			
3.	Understands safe storage of medications in the care environment.		9.	Checks and confirms the patient/service user's identity and establishes consent. (ID band or other confirmation if in own home)			
4.	Maintains effective hygiene/infection control throughout.		10.	Administers or supervises self-administration safely under direct supervision. Verifies that oral medication has been swallowed.			
5.	Checks prescription thoroughly. Right patient/service user Right medication		11.	Describes/demonstrates the procedure in the event of reduced capacity and non-adherence			
	Right time/Date/Valid periodRight dose/last dose		12.	Safely utilises and disposes of equipment.			
	Right route/methodSpecial instructions		13.	Maintains accurate records.Records, signs and dates when safely administered			
			14.	Monitors effects and is aware of common side effects and how these are managed.			
6.	Checks for allergies demonstrating an understanding of the risks and managing these as appropriate • Asks patient/service user.		15.	Uses appropriate sources of information e.g. British National Formulary			
	Checks prescription chart or identification band		16.	Offers patient /service user further support/advice/education, including discharge/safe transfer where appropriate
